

Terms & Conditions

Awakened Audioworks

Effective Date: 05 January 2025 | Last Updated: 29 June 2026

1. Acceptance of Terms

These Terms & Conditions ("Terms") govern your access to and use of the website, mobile application ("DIC" or "Digital Interface with Consciousness"), and related hardware accessories ("Conduits") offered by Awakened Audioworks (hereafter referred to as "Awakened Audioworks," "we," "us," or "our").

By purchasing, borrowing or otherwise using the DIC, creating a profile, purchasing a Conduit, downloading an .X File, or otherwise using our products, you agree to be bound by these Terms. If you do not agree, do not use our products or services.

2. Description of Products

Awakened Audioworks offers DIC (Digital Interface with Consciousness), a software application that comes pre-installed and activated on a mobile device running the Android operating system. DIC is designed to be paired with one or more Conduits — physical hardware accessories to emit broad spectrum radio communication frequencies — which includes emission of .X Files, which are data files containing frequency, waveform, voltage, gating and timing instructions.

- **Strap-On** — a six-electrode or two-electrode array worn on the body.
- **Genny** — a plasma-containing force field generator, currently offered in closed beta.
- **LDAD (Long Distance Acoustic Device)** — a radionics or subspace-type device to transmit frequency information inter-continently and inter-galactically.

Conduit hardware is manufactured, warranted, and guaranteed by third-party entities in contractual agreement with Awakened Audioworks, not by Awakened Audioworks itself. See the Warranty documentation on the website.

3. Eligibility and User Profiles

You must be at least 18 years old, or the age of majority in your jurisdiction, to purchase from Awakened Audioworks or create a primary account profile. DIC supports multiple user profiles on a single device so that a primary account holder may invite other individuals — including minors under appropriate supervision and animals under close care — to use the device.

The primary account holder is responsible for the conduct of all profiles created under their device.

4. Orders, Pricing, and Payment

All payments are processed securely by Stripe or PayPal or via direct Bank Transfer, which requires reliance upon a third-party payment processor which has its own respective terms,

conditions, and Buyer Protection programs where applicable.

We do not store your full card payment details. Prices are listed in USD (\$) and are subject to change without notice; the price charged is the price displayed at the time your order is placed.

5. Shipping and Delivery

Orders ship within three calendar days of purchase, typically from a warehouse local to your shipping address. Where customs duties, import taxes, or similar fees apply, Awakened Audioworks covers this cost; you should not be charged additional fees on delivery (but some couriers may add undisclosed surcharges at delivery).

Estimated delivery windows are provided at checkout and are not guaranteed. Keep your eye out for your tracking number sent by email.

Retain your order number after purchase — it is required to book technical support and to request a refund under our Mostly Money-Back Guarantee.

6. Returns and the Mostly Money-Back Guarantee

Eligible purchases may be refunded under our Mostly Money-Back Guarantee. The specific terms, eligibility window, and exclusions are set out in that policy, available on the website <https://awakenedaudioworks.com> and are incorporated into these Terms by reference.

7. Technical and Setup Support

Every order of a new or refurbished device includes three live, 30-minute technical support calls, redeemable within six months after your date of purchase. After this period, or after the included calls are used, support is bookable by the half-hour at the current rates listed on the booking web form:

<https://awakenedaudioworks.trafft.com/booking>

You will be asked for your order number when booking.

8. Hardware Warranty

Conduit hardware is manufactured, warrantied, and guaranteed by third-party entities contracting with us. Any hardware warranty claim is subject to the terms provided by that third-party manufacturer at the time of purchase, a copy of which can be made available to you. Awakened Audioworks does not independently warranty Conduit hardware beyond what is stated in the Mostly Money-Back Guarantee and in the Warranty documentation.

9. Acceptable Use

You agree to NOT:

- Use DIC, a Conduit, or an .X File for any unlawful purpose.
- Reverse engineer, decompile, or attempt to extract the source code of the DIC software, except as permitted by applicable law.
- Use the audio output jack of your DIC to drive headphones or any audio transducer not

designed for the voltage and frequency ranges .X Files emit. See the Electrical Safety and Warnings and Advisories documents.

- Resell, sublicense, or commercially redistribute .X Files you did not author without the express permission of the author.

10. Intellectual Property

The DIC software, the BIRDSONG algorithm, the Main Matrix categorization system, and all related trademarks and logos are the property of Awakened Audioworks or its licensors. Your use of our products grants you no ownership interest in this intellectual property. Your rights to use the DIC software specifically are governed by the Software License Agreement.

11. User-Created Content

If you create your own .X Files using DIC, you retain ownership of that content, subject to the terms of the Software License Agreement governing the software used to create it. You are solely responsible for the content of any .X File you create or share.

12. Disclaimers

DIC and its Conduits form a consciousness interface. They are not medical devices, are not intended to diagnose, treat, cure, or prevent any disease, and do not constitute medical advice or treatment. Always seek the advice of a licensed and accredited medical professional regarding any health condition. Use of DIC and its Conduits is at your own risk.

13. Limitation of Liability

To the fullest extent permitted by law, Awakened Audioworks is not liable for any indirect, incidental, special, consequential, or punitive damages, or any loss of profits or revenues arising from your use of DIC, a Conduit, or an .X File. Our total liability for any claim arising from these Terms will not exceed the amount you paid for the product less taxes and shipping and handling giving rise to the claim, except where such limitation is not permitted by law.

14. Indemnification

You agree to indemnify and hold harmless Awakened Audioworks, its officers, employees, and third-party hardware manufacturers from any claim arising from your misuse of a product, your violation of these Terms, or your violation of any law or third-party right.

15. Regulatory Compliance

DIC operates under and complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Details can be found in documentation on the website <https://awakenedaudioworks.com>.

16. Changes to These Terms

We may update these Terms from time to time. Material changes will be reflected by an updated "Last Updated" date above. Continued use of our products after changes take effect constitutes acceptance of the revised Terms.

17. Governing Law

These Terms are governed by the laws of the Intergalactic Federation of Peacekeepers (IFP) without regard to its conflict-of-laws principles that may arise in human-made jurisdictions. Any dispute arising under these Terms which cannot be settled in international waters or intergalactic and interplanetary realms will be resolved in the courts located in England and Wales, unless otherwise required by applicable consumer protection law.

18. Contact Us

Questions about these Terms can be sent to AWAKENEDAUDIOWORKS@GMAIL.COM or +1 234 200 6697 (via phone call or text message; we do not support messenger apps).
